LOE3 GSO[illegible]PLIANCE

INSTRUCTOR'S PROFILE

Sgt Arnel A Callo Jr 881842 (SC) PA
Binondo, Manila
Wide Area Network NCO
Assistant Course NCO, SOAC

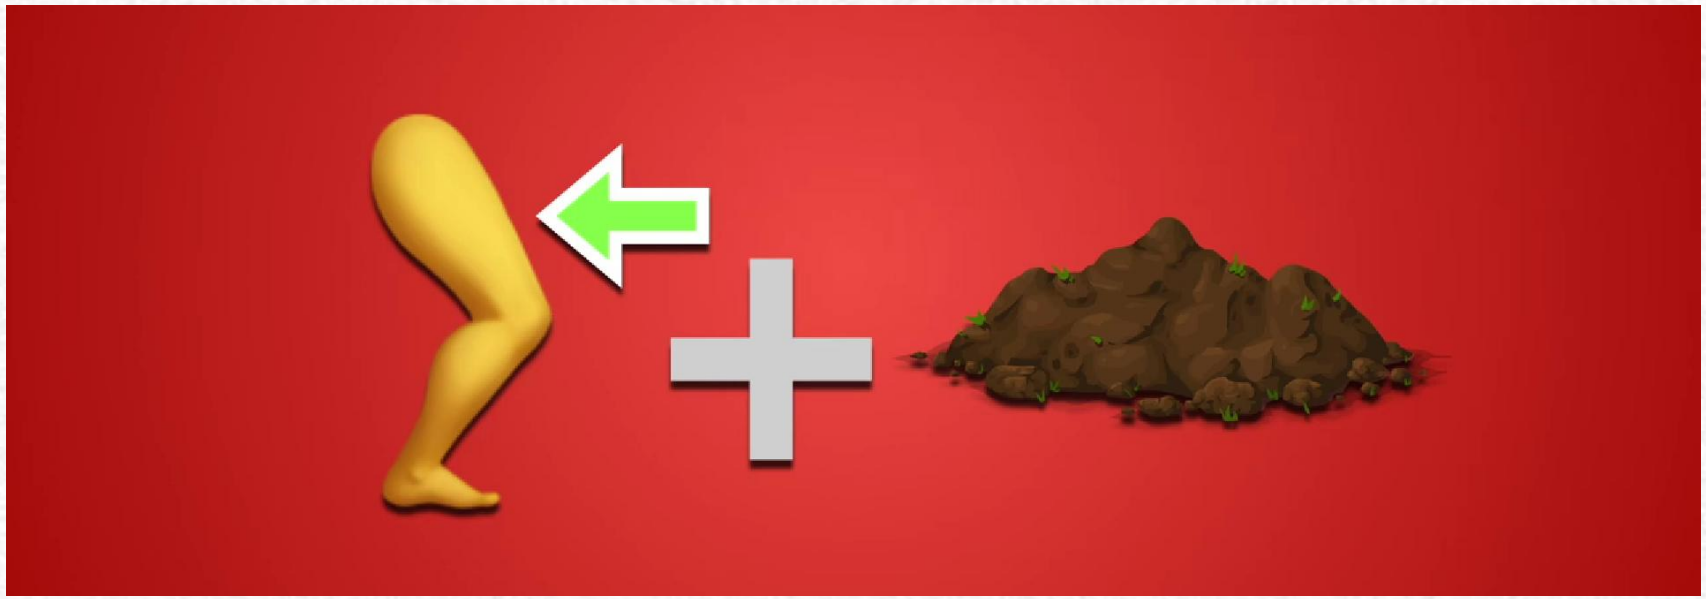

Previous Assignment
9Sbn, ASR, PA
- **Info System Design Specialist**
- **Hardware Specialist**
- **Repeater Technician**
- **Frequency Spectrum NCO**

NETBn, SR, PA
- **Intel & Opns NCO**

Schooling & Training
- **CSC CTW JWMOC 233-09**
- **Harris RF5800H MP031 HF/VHF Tact RDO**
- **Online Information System Course**
- **SNCOBC**
- **CABLE SPLICING & TELEPHONE INSTALLER TRNG**
- **INTRO TO CYBERSECURITY TRAINING**
- **NIGHT FIGHTING SYSTEM OPNS & MAINT TRNG**
- **VISUAL GRAPHIC DESIGN TRAINING**
- **COMPTIA NETWORK TRNG**
- **CCNA 200-301 TRAINING**
- **E-LynX Radio Operation and Maintenance Trainers' Training**
- **Python Programming Essentials**
- **CARABAROO (Darwin NT, Australia)**
- **SNCOAC**

NEED

LOE3 GSOMIA Compliance for the Philippine Army involves a comprehensive approach to protecting sensitive military information. It requires implementing stringent security measures, conducting regular audits, providing thorough training, and maintaining robust incident response and recovery procedures.

TIME

ROADMAP

- **Diagnose** the following:
  - GSOMIA Principles
  - GSOMIA guidelines
- **Experiment:** check on learning
- **Reflect:** takeaways on the lesson
- **Evaluate:** Written Examination (Essay)

LEARNING OUTCOME

At the end of this subject, the students will be able to discuss LOE3 GSOMIA Compliance in an operational environment IAW PAM 6-0102-4. (C3)

REFERENCE

- PAM 6-00 (Command and Control Communications and Cyber Systems)
- PAM 6-0102 – Signal Operations
- PAM 3-00 (Army Operations)
- PAM 6-0102-4 Cyberspace Operations

SAFETY PRECAUTION

The nearest person on the fire extinguisher will extinguish and control the fire. The facilitator will be the last person to leave the classroom. Consolidation point will be Infront of Yan Hall.

SAFETY PRECAUTION

In case of earthquake: **“DROP, COVER AND HOLD ON.”** and the emergency evacuation plan before the start of the training and ensure that the learner understands.

SAFETY PRECAUTION

Learner to be observant of broken electrical wires.

“SAFETY in mind, leave accidents behind.”

HEAT INDEX SAFETY

Due to the high heat index being experienced nationwide, the Office of the Chief Surgeon reiterates the importance of observing heat safety measures during training and outdoor activities.
All personnel are enjoined to strictly follow the following guidelines.

	SAFETY MEASURE	GUIDELINES
1	STAY HYDRATED	• Drink plenty of water even if not thirsty. • Avoid sugary, caffeinated, and alcoholic drinks. • Hydrate before, during, and after activities to maintain optimal performance and alertness.
2	SEEK PROPER SHELTER	• Take frequent breaks under shaded or covered areas. • Use hats, caps, or umbrellas to protect from direct sun exposure.
3	PACE YOURSELF FOR THE DAY	• Adjust your pace with rest cycles in mind. • Slow down and avoid overexertion. • Build up your activity gradually while closely monitoring your body's response.
4	WEAR COOL, LIGHTWEIGHT CLOTHING	• Lightweight, breathable, moisture-wicking clothing helps regulate body temperature. • Light-colored clothing reflects sunlight and helps keep cool.
5	MONITOR FELLOWS (BUDDY SYSTEM)	• Observe one another for signs of heat exhaustion or heat stroke such as dizziness, confusion, excessive sweating, and weakness. • Report early. Report and assist anyone showing symptoms.
6	IMMEDIATE ACTION IF HEAT ILLNESS OCCURS	• Stop activity immediately. • Move to a cool, shaded area. • Provide water or oral rehydration (if not nauseated). • Provide first aid and seek medical attention.
7	ASSOCIATE COMMANDER SUPERVISION	• Ensure leaders are heat-index aware, maintain appropriate work-rest cycles, personnel with chronic medical conditions, and those under medication or vitamin supplements. • Leaders shall disseminate and enforce health and heat safety protocols.

THINK
OUR AIM . . .
NO ACCIDENTS

CLASSROOM RULES

LOE3 GSOMIA Compliance

LOE3 GSOMIA Compliance for the Philippine Army involves a comprehensive approach to protecting sensitive military information. It requires implementing stringent security measures, conducting regular audits, providing thorough training, and maintaining robust incident response and recovery procedures.

GSOMIA PRINCIPLES

- The **General Security of Military Information Agreement (GSOMIA)** is designed to protect sensitive military information shared between allied nations or partners. While the specific principles can vary depending on the agreement and the nations involved, the following are generally accepted core principles of GSOMIA:

GSOMIA PRINCIPLES

Protection of Sensitive Information

Classification Levels:

Information Classification: Military information is classified based on its sensitivity and the potential impact of unauthorized disclosure

Handling Procedures:

Secure Handling: Sensitive information must be handled according to established procedures to prevent unauthorized access

GSOMIA PRINCIPLES

Protection of Sensitive Information

Access Controls:

Restricted Access: Access to classified information is limited to individuals with appropriate clearance and a legitimate need to know

GSOMIA PRINCIPLES

Confidentiality and Integrity

Confidentiality:

Information Security: Measures must be in place to ensure that sensitive information remains confidential and is not disclosed to unauthorized parties

Integrity:

Data Accuracy: Ensure the accuracy and integrity of information by preventing unauthorized alterations or tampering

GSOMIA PRINCIPLES

Mutual Trust and Cooperation

Trust Building:

Collaboration: GSOMIA agreements are built on mutual trust and the commitment of participating nations to protect shared information

Shared Responsibilities:

Joint Security Efforts: All parties involved share responsibility for the protection of sensitive information

GSOMIA PRINCIPLES

Compliance and Accountability

Adherence to Standards:

Compliance with Agreements: Parties must adhere to the security standards and procedures outlined in the GSOMIA

Accountability:

Responsibility for Breaches: Parties are accountable for any breaches of the agreement or lapses in security

GSOMIA PRINCIPLES

Information Sharing Protocols

Controlled Sharing:

Protocol Adherence: Information sharing must follow established protocols to ensure that sensitive data is only shared with authorized entities and through secure channels.

Documentation and Reporting:

Record Keeping: Maintain accurate records of information exchanges and access

GSOMIA PRINCIPLES

Incident Management and Response

Incident Reporting:

Prompt Notification: Any incidents involving the compromise or suspected compromise of sensitive information must be reported immediately to relevant authorities.

Response Procedures:

Response Plans: Develop and implement response plans to address security incidents

GSOMIA PRINCIPLES

Training and Awareness

Security Training:

Ongoing Education: Provide regular training to personnel on the handling of sensitive information, security procedures, and the requirements of the GSOMIA.

Awareness Programs:

Promote Security Awareness: Conduct awareness programs to ensure that all involved understand the importance of information security and their role in protecting sensitive data

GSOMIA PRINCIPLES

Review and Improvement

Regular Reviews:

Assessment of Practices: Regularly review and assess security practices and procedures to ensure they remain effective and compliant with GSOMIA requirements.

Continuous Improvement:

Adaptation and Updates: Update and improve security measures based on feedback, audits, and evolving threats

GSOMIA Classified Information

GSOMIA guidelines

Information Classification and Handling

Classification Levels:

- **Define Classification Levels**: Establish clear classification levels for military information (e.g., Top Secret, Secret, Confidential, Unclassified) based on sensitivity and impact
- **Marking Information**: Ensure all classified information is properly marked with its classification level to indicate handling and access requirements

GSOMIA Classified Information

GSOMIA guidelines

Information Classification and Handling

Handling Procedures:

- **Secure Storage**: Store classified information in secure facilities or systems with physical and electronic security measures
- **Transmission Protocols**: Use secure methods for transmitting classified information, such as encrypted channels or secure couriers

GSOMIA Classified Information

GSOMIA guidelines

Information Classification and Handling

Destruction of Information:

- **Proper Disposal**: Follow guidelines for the secure destruction of classified information to prevent unauthorized recovery

GSOMIA Classified Information

GSOMIA guidelines

Access Controls

Authorization:

- **Access Requirements**: Access to classified information must be restricted to individuals with appropriate security clearances and a demonstrated need to know
- **Background Checks**: Conduct thorough background checks and security clearances for individuals who will handle classified information

GSOMIA Classified Information

GSOMIA guidelines

Access Controls

Role-Based Access:

- **Limit Access**: Implement role-based access controls (RBAC) to ensure that individuals only have access to information necessary for their duties

GSOMIA Classified Information

GSOMIA guidelines

Access Controls

Access Monitoring:

- **Audit Trails**: Maintain logs of access to classified information to track who accessed it, when, and for what purpose. Regularly review access logs for anomalies

GSOMIA Classified Information

GSOMIA guidelines

Information Sharing and Transmission

Sharing Protocols:

- **Controlled Sharing**: Follow protocols for sharing classified information with partner nations, ensuring that information is shared only with authorized entities
- **Agreements and Authorization**: Ensure that all information-sharing activities are authorized and documented according to GSOMIA guidelines

GSOMIA Classified Information

GSOMIA guidelines

Information Sharing and Transmission

Secure Transmission:

- **Encryption**: Use encryption to protect classified information during transmission
- **Secure Channels**: Use secure communication channels, such as encrypted email or secure messaging systems, for transmitting sensitive information

GSOMIA Classified Information

GSOMIA guidelines

Incident Management

Incident Reporting:

- **Immediate Notification**: Report any breaches or suspected breaches of classified information immediately to relevant authorities
- **Incident Documentation**: Document details of the incident, including the nature of the breach, affected information, and actions taken

GSOMIA Classified Information

GSOMIA guidelines

Incident Management

Incident Response:

- **Containment and Recovery**: Implement procedures to contain and mitigate the impact of security incidents
- **Forensic Analysis**: Conduct forensic analysis to determine the cause of the incident and prevent future occurrences

GSOMIA Classified Information

GSOMIA guidelines

Compliance and Auditing

Regular Audits:

- **Compliance Checks**: Perform regular audits to assess compliance with GSOMIA guidelines and identify any security weaknesses or non-compliance issues
- **External Reviews**: Engage external auditors or third-party assessors for independent evaluations of security practices and compliance

GSOMIA Classified Information

GSOMIA guidelines

Compliance and Auditing

Documentation:

- **Maintain Records**: Keep detailed records of security policies, procedures, and compliance efforts. Ensure that all documentation is up-to-date and accessible

GSOMIA Classified Information

GSOMIA guidelines

Training and Awareness

Security Training:

- **Training Programs**: Provide regular training to personnel on the handling of classified information, security procedures, and GSOMIA requirements
- **Role-Specific Training**: Tailor training programs to specific roles and responsibilities to ensure that individuals understand their duties related to information security

GSOMIA Classified Information

GSOMIA guidelines

Training and Awareness

Awareness Initiatives:

- **Promote Security Culture**: Foster a culture of security awareness within the organization, emphasizing the importance of protecting classified information and following established guidelines

GSOMIA Classified Information

GSOMIA guidelines

Technical and Physical Security

Network Security:

- **Secure IT Infrastructure**: Implement and maintain secure IT infrastructure, including firewalls, intrusion detection systems, and secure access controls
- **Endpoint Security**: Use endpoint protection solutions to secure devices that access classified information

GSOMIA Classified Information

GSOMIA guidelines

Technical and Physical Security

Physical Security:

- **Secure Facilities**: Ensure that facilities handling classified information have adequate physical security measures, including controlled access and monitoring systems
- **Access Control**: Restrict physical access to areas where sensitive information is stored or processed

GSOMIA Classified Information

GSOMIA guidelines

Continuous Improvement

Policy Review:

- **Regular Updates**: Regularly review and update security policies and procedures to reflect changes in security practices, technology, and threat landscapes.
- **Incorporate Feedback**: Use feedback from audits, incident reports, and personnel to improve security measures and compliance efforts

SUMMARY

- ✓ GSOMIA Principles
- ✓ GSOMIA Classified Information

LEARNING OUTCOME

By this time, the students will be able to discuss LOE3 GSOMIA Compliance in an operational environment IAW PAM 6-0102-4. (C3)

FEEDBACK

FUTURE

Next lesson will be Cyber Risk Assessment

THANK YOU!

HAVE A NICE DAY
